REPORT OF THE ROAD AGENT

I respectfully submit the annual report for the Road Agent of the Town of Fremont for the year of 1975.

Summer maintenance consisted of tarring, cold patching, mowing along sides of roads, hauling away of the brush, scraping and levelling dirt roads, also the hauling of gravel on the dirt roads.

Winter maintenance consisted of plowing, sanding and some salting, which I tried to stay away from because of the high cost of purchasing the salt.

With part of my State Class 5 T.R.A. money, I have started the reconstruction of the town's portion of the Chester Road. I intend to use the rest of the 1975-1976 State T.R.A. money to finish the Chester Road and to begin the reconstruction of South Road this summer, which consists of tarring also.

Respectfully submitted,
Joseph Bolduc, Sr.
Road Agent

REPORT OF FIRE DEPARTMENT

Clarence Philbrick,
Chief

I, Clarence Philbrick, Chief, would like to thank all my officers, firemen and non-firemen who did a splendid job at all the fires we had in 1975. They responded to the fires quickly and everything went along very well.

We had three small brush fires and they were put out very fast. They were all spot fires and no damage to the forest trees, only pine needles, leaves and some brush.

Our 1961 GMC engine 2 class A pumper will be 20 years old in 1981 and that means the town of Fremont will have to get a new class A pumper by that year. I have spoken to some salesmen who sell fire trucks and the figure today start at \$50,000.00 and up. What it will cost by 1981 is a good guess.

The Fire Department thinks the town should start putting away some money in a Capital Reserve Fund for a new Fire truck beginning with 1976.

If you order a new fire truck it will be a year or more before you would receive it. So the town would have to order a new truck the last of 1979 or 1980 to get it by 1981.

If the town does not get a new fire truck, the insurance rates on our homes, etc., will increase approximately 45% more then they are now.

The Fire Department and Firemen's Association bought 10 bunker coats and 10 pair of boots for the firemen last year.

We are planning to get some more coats, boots and helmets this year.

I would like to thank everyone who had anything to do with removing the snow from in front of the Fire Station this last winter.

We made a number of trips to the town dump to check smoke when reported by the fire towers. These are not listed on the Fire Department run list. We made approximately 40 runs in 1975. We went out of town on stand-by 4 times with the rest of the runs in town. We had nine chimney fires and 5 false alarms. The following is the list of runs the Fire Department made in 1975:

January 23, 1975 – Dan Hayward, Chimney fire

January 27, 1975 – Leo Bolduc, Car fire

Fire Chief and Forest Fire Warden

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Upon the recommendation of town selectmen and city councils, the Division of Forests and Lands appoints a forest fire warden and several deputy forest fire wardens in each town and city every three years. The town or city warden is responsible for maintaining a force of men and adequate equipment to suppress any wildfire that occurs in his town or city during his term of appointment. The fire warden must authorize all open burning when the ground is not covered with snow. No open fires can be authorized between 9 a.m. and 5 p.m., unless it is raining, without the additional permission of the state district fire chief.

Any person wishing to kindle an open fire when the ground is not covered with snow must first obtain the written permission of the forest fire warden. Camp and cooking fires also require the warden's permission.

The Division of Forests and Lands, through its Forest Fire Service, assists all cities and towns in meeting these requirements by training the warden and deputy forces in wildfire suppression tactics, making hand tool suppression equipment available at fifty percent of cost, supplying pieces of federal excess property for use as fire attack vehicles and sharing up to fifty percent of the cost of wildfire suppression costs.

Wildfire prevention is also a joint state, city or town program. Smokey Bear is available from the Forest Fire Service for local fire prevention programs. Posters and Junior Ranger kits are available for distribution by local fire departments upon request to the Forest Fire Service. Each forest fire warden is expected to carry on a continuous wildfire prevention program within his town or city.

REPORT OF POLICE CHIEF

Many key events of the year 1975 with important data, not unique but endowed with everyday sentiments, excitements and certain pursuits of many leading issues, make Our Town of Fremont and the men who serve its' needs with activities and actions essential, sometimes efforts above and beyond the call of duty to do the best, difficult to maintain, asperity becomes flexible, confidence takes part in whatever happens to be underway. You not only become a mentor towards menial problems but stress interminable wisdom that misdemeanors, misty flaws and felonies are unworthy failings that deprive one of the rights of self respect. Often illicit carousing and an inebriate that wet one's whistle takes away the precious gift of life when a conveyance accelerated by the foot pedal becomes a light footed thunderbolt or a sharp snip of lightning, causing harm to others rather than to himself. Oftentimes the mind will not let the individual forget. Reports of the Chief of Police can be with strife, struggles, affairs of honor, spectres of tranquility, hostilities, or blends of harmonious compromise. Minutes of embarrassments and annoyances, instants that can quell bitter fiascos. Then an occasion to proudly mention the lead of a parade marshal with men of the Fremont Police Force and other significant units.

I would like to Thank all the residents and tax payers of Fremont at this time for the fine cooperation and understanding given the Fremont Police Department in the past year 1975.

I am especially proud of my police officers for the prime work they have done putting in many long hours on their own time.

I am happy to report that the motor vehicle accident rate this year in Fremont was greatly reduced with no fatalities and only one requiring hospitalization.

Several acts of vandalism were investigated and the persons responsible made restitution for damages.

There were 13 cases of breaking and entering investigated. The persons responsible for 7 were arrested and taken to court. Many of the articles taken have been recovered and returned to their respective owners.

Several domestic problems were also investigated.

Many hours have been put in on road patrol and I intend to increase even more this year.

We have been awarded a new combination Motorola Mobile Portable Radio through Crime Commissions Funding with very little cost to the town. The unit will be very useful when an Officer has to leave his car, such as looking and searching for a lost person in the woods.

I, Chief of Police, Fred L. O'Brien

respectfully submit

the above confirmations

This Date . . .

REPORT OF BUILDING INSPECTOR

This past year, the building inspector of the Town of Fremont has issued the following permits:

Apartment Buildings0
Single Residences9
Alterations, Additions	
Auxiliary Buildings28

Included in above, we had three instances of non-conforming conditions that were handled excellently by this Board of Adjustment enabling those people to begin construction. The townspeople should be reminded that building, remodeling, alterations, additions, new buildings, including erection of accessory building and moving buildings, all require permits. Earth moving operations require permits also.

If any information is required, copies of the building code may be obtained from the building inspector or any member of the board of selectmen.

Please advise those contemplating these projects to secure proper permits before starting work in order to avoid expense, embarrassment and penalties for violations that frequently result from starting work without regard to the code or permit requirements.

Please be reminded, that the building code is set up mainly to help those intending to build or remodel, and not to jus police violations.

Peter Nault,
Building Inspector

Fremont, N.H. 03044

Gentlemen:

I have examined the accounts of the following Town Officers: Clerk, Tax Collector, treasurer and Selectmen of the Town of Fremont, New Hampshire for the calendar year ending December 31, 1975

All vouchers were accounted for and all accounts were found complete.

I did not examine the accounts of the Trustee of Trust Funds as they were not made available in time for this report but they will be examined as soon as they are received.

Respectfully submitted,
Herman Ostendorf,
Town Auditor

REPORT OF THE LIBRARY TRUSTEES

In spite of a very tight budget, 1975 saw the circulation and reference use of the library increase gradually. Our expenditures were: salary, \$848.40; oil, \$137.34; electricity, \$53.00; books, \$230.20; and supplies, \$51.28 for a total of \$1,320.22. Mrs. Seavey's report shows how we spent funds other than the town appropriation. The federal government helped a little when the selectmen made manpower young people available. These cheerful workers cleaned and painted two storage closets so that we now have orderly stacks for less used books. Cathy Hall learned simple library procedures and helped Mrs. Seavey on regular library days.

The remaining trustees accepted with real regret the resignation of Florence Turner when she found she was going to be away from Fremont more than here. She had worked hard and given much valued advice. The Selectmen replaced her with John T. Kalinowski of Beede Hill Road so that the male point of view may once again be represented.

The Trustees extend their thanks and those of the Town to the Community Club and to other donors of memorial gifts and also to all the friends of the library who made books, especially current books, available to our readers. These bridged the gap when our funds for books ran out. Above all we thank Mrs. Helen Seavey who makes the library the happy, useful place which it is.

FREMONT CONSERVATION COMMISSION

The Fremont Conservation Commission in co-operation with the Community Club worked on the landscaping of the Phillip Pratt Memorial Park. Six Blue Spruce trees, donated by Patnaude Tree Farm, were planted to back a split rail fence. Grass was planted and two Arbor Vitae trees flank the new flag pole. Two more are ordered for Spring, 1976. The riverbank will be stabilized with wood chips and wildlife shrubs, and several shade trees will be planted. Appreciation is expressed to the following: Danny McKay for a large amount of fill and labor; a full day of trucking by Roland Schreiber; Joe Bolduc for the use of his equipment and crew. Acknowledgement should also be given to Joan Young who set the project in motion.

Our Educational programs: The Wildlife Tree and Shrub Program, The Children's Annual Program, and The Home Gardening Program were well attended. We plan to offer field trips and add new programs of interest in 1976. Mapping and charting of the waterways and wetlands continues. The Conservation Land Trust Fund established by the townspeople is growing. We now have \$539.28. Donations and bequests are always welcomed.

SUPERINTENDENT'S REPORT

A major organizational change is taking place in Supervisory Union No. 14 this year.

Beginning July 1, 1976 the Sanborn Regional School District will be withdrawing and forming its own Supervisory Union, leaving Fremont, Chester, Epping and Newmarket to continue as Supervisory Union No. 14. This change will have little or no effect upon Fremont's overall educational programs. The Superintendent's Office will still be located on North Rd., in Brentwood and will continue to provide all the services it is presently providing, i.e., educational leadership, advice to the school board, clerical assistance in the areas of payrolls, bookkeeping, accounts payable, district reports, warrants, etc. Without Sanborn Regional's constant demands on the office staff, more immediate attention may be given to Fremont's educational and business problems.

Another educational development occurring is the availability of Raymond High School in 1976-77 to any Fremont pupil who prefers attending that school instead of Sanborn Regional or Exeter High School. Raymond will be opening new school facilities in September 1976, and has indicated to the Fremont School Board that it can now handle many more high school pupils than in the past. Any pupil interested in attending Raymond High School next year should immediately have his parents get in touch with the Fremont School Board or the Superintendent of Schools Office.

Mr. Standen makes good sense when he states that "Teachers of today's students have an entirely different task before them from that of their predecessors. No longer are they merely the sources of knowledge, the conveyors of our culture, and the teachers of basic skills. Today's educators must be dynamic in their thinking, able to deal with and evaluate new concepts in education and be able to change their approach with respect to their understanding of the society in which they live and work.

With this in mind, the teachers of Ellis School view children as young individuals who have many different needs: getting along with one's peers, being able to deal with one's emotions, and being able to pursue their educational needs. It is in this light that good balance of individual and group activity is offered at each grade level.

Today's conceptions of the educational development of young people have changed the relationship between student and teacher. The educator has always been a guide for youth and authority is an important factor in the educational process. As well as being able to instruct and direct, today's teacher must be able to advise and inspire.

The teachers at Ellis School try very hard to nourish creativity, independence and self-reliance building strong foundations that are

built upon at each grade level.

When a member of the community looks at a teacher's task, his or her views are based upon his or her own elementary school recollections. In reality, times have changed and in spite of the news media, a person's view of today's educational procedures are extremely limited.

However, people in Fremont are becoming more knowledgeable about what's going on in their school through PTA, school visits, parental support and their cooperation to be sure that we are directing ourselves along the right paths to meet today's community needs.

Three educational voids that have been successfully filled are those of speech therapy, learning disability and developmental reading. Problems encountered by pupils in the early years at school are now being met and dealt with as well as reinforcing the needs of older children.

The staff at Ellis School certainly wishes to thank the citizens of Fremont for their many services and assistance that have been rendered to us at school."
